Enclosures
Mr. President,

I write to you in my capacity as a member of the U.S. Department of Education, in accordance with the provisions of the Higher Education Act of 1958, Title V, Section 547, which provides for the establishment of a National Center for Education Statistics. This center is responsible for conducting research on various aspects of education, including the evaluation of educational programs and policies.

I am writing to inform you of a recent study conducted by our center, which indicates that there is a significant need for more funding for educational research and development. The study also highlights the importance of supporting innovative approaches to education, particularly in the areas of technology and science.

I believe that increased funding for educational research and development would not only benefit the nation's schools and students, but also contribute to the overall economic growth and competitiveness of the United States.

I appreciate your consideration of this matter, and look forward to the opportunity to discuss these issues with you further.

Sincerely yours,
