

R & D

A RESOLUTION

Requesting the Department of Resources and Development of the National Government of the Federated States of Micronesia to conduct a feasibility study to determine the kinds of food plants and cash crops which can be raised on the outer islands of Yap State.

1 WHEREAS, the outer islands of Yap State are made up of coral
2 islands consisting mostly of alkaline soil; and

3 WHEREAS, as of yet no study has been conducted to determine the
4 kinds of plants, including coconut seedlings, breadfruit, bananas,
5 and other cash crops, which are suitable for plantation on the outer
6 islands; and

7 WHEREAS, it will be of great benefit to the people of the
8 outer islands of Yap State if a feasibility study is conducted to
9 determine the kinds of food plants and cash crops which can best
10 grow on the outer islands; now, therefore,

11 BE IT RESOLVED by the Third Congress of the Federated States of
12 Micronesia, First Regular Session, 1983, that the Department of
13 Resources and Development of the National Government of the Federated
14 States of Micronesia be requested to conduct a feasibility study to
15 determine the kinds of food plants and cash crops which can be raised
16 on the outer islands of Yap State; and

17 BE IT FURTHER RESOLVED that certified copies of this resolution
18 be transmitted to the President of the Federated States of Micronesia,
19 the Secretary of the Department of Resources and Development of the
20 National Government of the Federated States of Micronesia, the Governor
21 of Yap State, and to each of the chief magistrates of the outer islands
22 of Yap State.
