A BILL FOR AN ACT

To further amend Title 41 of the Code of the Federated States of Micronesia (Annotated), by creating a new Chapter 12 to establish the FSM Pharmaceutical Act of 2018, and for other purposes.

BE IT ENACTED BY THE CONGRESS OF THE FEDERATED STATES OF MICRONESIA:

1           Section 1. Title 41 of the Code of the Federated States of  
2   Micronesian (Annotated), is hereby amended by creating a new  
3   chapter 12 entitled: "FSM Pharmaceutical Act of 2018".

4           Section 2. Chapter 12 of title 41 of the Code of the  
5   Federated States of Micronesia (Annotated), is hereby amended by  
6   inserting a new subchapter 1 entitled: "General Provisions".

7           Section 3. Chapter 12 of title 41 of the Code of the  
8   Federated States of Micronesia (Annotated), is hereby amended by  
9   inserting a new section 1201 of subchapter 1 to read as follows:  
10           "Section 1201. Short title. This Act may be referred  
11           to as the FSM Pharmaceutical Act of 2018.".

12           Section 4. Chapter 12 of title 41 of the Code of the  
13   Federated States of Micronesia (Annotated), is hereby amended by  
14   inserting a new section 1202 of subchapter 1 to read as follows:  
15           "Section 1202. Statement of Policy. It is hereby declared  
16           as a policy of the Federated States of Micronesia:

17           1. That all people have the right to access quality,

---

1           safe, effective and affordable medicines;

2           2. That a national regulatory authority shall be  
3           established and progressively strengthened to administer  
4           and enforce regulations of all pharmaceutical products  
5           to ensure acceptable standards of quality, safety and  
6           efficacy; regulate promotion and marketing to ensure  
7           rational drug use; control use of antimicrobials; and  
8           ensure compliance to standards and requirements for all  
9           personnel, business establishments , premises and  
10          practices in the manufacture, storage, supply and  
11          distribution, sale, prescription and dispensing of  
12          pharmaceutical products;

13          3. That the national regulatory authority shall, to  
14          the extent possible, participate in regulatory  
15          convergence and cooperation as a means to strengthen the  
16          FSM regulatory system and cooperate with regulatory  
17          authorities in other countries as appropriate, to align  
18          regulatory processes where needed to tackle public  
19          health emergencies, including antimicrobial resistance  
20          and address the proliferation of substandard, falsified  
21          and unlicensed products across borders."

22          Section 5. Chapter 12 of title 41 of the Code of the  
23 Federated States of Micronesia (Annotated), is hereby amended by  
24 inserting a new section 1203 of subchapter 1 to read as follows:

25          "Section 1203. Definition: For the purposes of this

---

1 title, the following terms shall be given the meanings  
2 described herein:

3 1. "Active Pharmaceutical Ingredient" (API) is the  
4 chemical substance contained in a pharmaceutical,  
5 which is responsible for its therapeutic effect. Some  
6 pharmaceuticals contain more than one active  
7 ingredient (combination product).

8 2. "Administer" means administering of medicines to  
9 a human being either orally or by injection or by  
10 introduction into the body in any other way or by  
11 external application whether with direct body contact  
12 or not.

13 3. "Adverse drug reaction" (ADR) is a response to a  
14 medicinal product which is noxious and unintended and  
15 which occurs at doses normally used in man for the  
16 prophylaxis, diagnosis or therapy of disease or for  
17 the restoration, correction or modification of  
18 physiological function. An adverse drug reaction,  
19 contrary to an adverse event, is characterized by the  
20 suspicion of a causal relationship between the  
21 medicine and the occurrence. *Serious adverse reaction:*  
22 An adverse reaction which results in death, is life-  
23 threatening, requires in-patient hospitalization or  
24 prolongation of existing hospitalization, results in  
25 persistent or significant disability or incapacity, or

---

1           is a congenital anomaly/birth defect. *Unexpected*  
2           *adverse reaction*: An adverse reaction, the nature,  
3           severity or outcome of which is not consistent with  
4           the summary of product characteristics.

5           4. "Advertising" means the act or practice of  
6           calling or bringing public's attention to one's  
7           product, services and others especially by paid  
8           announcements in print and technology media to promote  
9           the sale and use of medicines.

10          5. "Authorized port-of-entry": An authorized port-  
11          of-entry is a port designated by the government where  
12          medicines may enter or leave under official  
13          supervision of relevant government authorities.

14          6. "Authorization holder" means the person or  
15          company in whose name the marketing authorization has  
16          been granted. This party is responsible for all  
17          aspects of the product, including quality and  
18          compliance with the conditions of marketing  
19          authorization. The authorization holder must be  
20          physically present in the country and be subject to  
21          all the rules and regulations of the country.

22          7. "Brand name" or "innovator's name" Name given  
23          for marketing purposes to any ready-prepared medicine  
24          placed on the market under a special name and in a  
25          special pack. A brand name may be a protected

---

1           trademark

2           8. "Certificate of pharmaceutical product (CPP)"  
3           is a certificate issued in the format recommended by  
4           the World Health Organization (WHO), which establishes  
5           the status of the pharmaceutical product and of the  
6           applicant for this certificate in the exporting  
7           country. The certificate attests that a specific  
8           pharmaceutical product is authorized for marketing in  
9           the certifying country, or if not, the reason why  
10          authorization has not been accorded; and the  
11          manufacturing facilities and operations conform to  
12          good manufacturing practices (GMP) as recommended by  
13          WHO. A CPP is issued by the authorized body of the  
14          exporting country and is intended for use by the  
15          national regulatory authority or other competent  
16          bodies in the Federated States of Micronesia when a  
17          pharmaceutical product is under consideration for a  
18          product license/marketing authorization that will  
19          authorize its importation and sale in FSM and when  
20          administrative action is required to renew, extend  
21          vary or review such license.

22          9. "Clinical Trial" is any systematic study on  
23          pharmaceutical products in human subjects, whether in  
24          patients or other volunteers in order to discover or  
25          verify the effects of, and/or identify any adverse

---

1 reaction to, investigational products, and/or to study  
2 the absorption, distribution, metabolism and excretion  
3 of the products with the object of ascertaining their  
4 efficacy and safety.

5 10. "Competent authority" A regulatory body  
6 authorized by the government to administer, implement  
7 and enforce regulations and compliance to national  
8 laws and carry out duties on behalf of the government.

9 11. "Complementary medicine" (CAM): often refers to  
10 a broad set of health care practices that are not part  
11 of a country's own tradition and are not integrated  
12 into the dominant health care system. Other terms  
13 sometimes used to describe these health care practices  
14 include "natural medicine", "nonconventional medicine"  
15 and "holistic medicine.

16 12. "Competent jurisdictions mean jurisdictions  
17 with stringent and operational regulatory system  
18 approved by the Secretary where medicines can be  
19 imported. Such approved jurisdictions shall be listed  
20 in a record and kept by the Secretary.

21 13. "Controlled Medicine" or "Controlled Substance"  
22 means medicine/drug, substance or immediate precursor  
23 in schedules I through V of subchapter II of chapter  
24 11 of Title 11 of the Code of the Federated States of  
25 Micronesia

---

1           14. "Dispensing" means providing medicines by an  
2           authorized person licensed to dispense medicines.

3           15. "Disposal" in this act means the action or  
4           process of getting rid of expired, damaged,  
5           deteriorated, or unwanted medicines/pharmaceutical  
6           products.

7           16. "Distribution" means the division and movement  
8           of pharmaceutical products from the premises of the  
9           manufacturer of such products, or another central  
10          point, to the end user thereof, or to an intermediate  
11          point by means of various transport methods, via  
12          various storage and/or health establishments.

13          17. "Donation" pertains to the act by which  
14          organizations, institutions, international development  
15          partners, non-government organizations and other legal  
16          entities within and outside FSM provide pharmaceutical  
17          products to the government for free and for specific  
18          use, such as in the case of emergencies or  
19          humanitarian purposes.

20          18. "Dosage form". The form of the completed  
21          pharmaceutical product, e.g. tablet, capsule, elixir,  
22          injection or suppository.

23          19. "Drug and therapeutics committee" is a group of  
24          people established and officially approved by the  
25          Secretary of Health and Social Affairs or State health

---

1           Directors that promotes the safe and effective use of  
2           medicines in the area or facility under its  
3           jurisdiction.

4           20. "Essential medicines" are medicines that  
5           satisfy the priority health care needs of the  
6           population. They are selected with due regard to  
7           public health relevance, evidence on efficacy and  
8           safety, and comparative cost-effectiveness.

9           21. "Establishment" means a licensed establishment  
10          or entity approved under this Act to engage in the  
11          manufacture, trade, distribution of pharmaceuticals  
12          and other products regulated under this Act. It  
13          includes, but not limited to the following:

- 14                   a. Wholesalers;  
15                   b. Distributors;  
16                   c. Pharmacies;  
17                   d. Importers  
18                   e. Exporters  
19                   f. Manufacturers  
20                   g. Warehouse operators  
21                   h. Packaging  
22                   i. Retailers

23                   1. "Exportation" means the process of sending  
24          medicines out of FSM by, sea or air.

25                   24. "Finished product" is a product that has

---

1           undergone all stages of production, including  
2           packaging in its final container and labeling and are  
3           no longer in their basic natural forms.

4           25. "Formulary". A formulary is a manual containing  
5           clinically oriented summaries of pharmacological  
6           information about selected drugs. A national formulary  
7           generally includes available and affordable medicines  
8           that are relevant to the treatment of diseases. It may  
9           also include administrative and regulatory information  
10          pertaining to the prescribing and dispensing of drugs.

11          26. "FSM Approved Medicines List" means list of  
12          medicines determined to meet the needs of the  
13          population of FSM and approved by the Secretary, to  
14          obtain marketing authorization in FSM and to be  
15          imported into and circulated in the FSM,

16          27. "Generic" is a pharmaceutical product which has  
17          the same qualitative and quantitative composition in  
18          active substances and the same pharmaceutical form as  
19          the reference medicinal product, and whose  
20          bioequivalence with the reference medicinal product  
21          has been demonstrated by appropriate bioavailability  
22          studies. The different salts, esters, ethers,  
23          isomers, mixtures of isomers, complexes or derivatives  
24          of an active substance shall be considered to be the  
25          same active substance, unless they differ

---

1           significantly in properties with regard to safety  
2           and/or efficacy. In such cases, additional  
3           information providing proof of the safety and/or  
4           efficacy of the various salts, esters or derivatives  
5           of an authorized active substance must be supplied by  
6           the applicant. The various immediate-release oral  
7           pharmaceutical forms shall be considered to be one and  
8           the same pharmaceutical form. Generics can be  
9           classified in branded generics (generics with a  
10           specific trade name) and unbranded generics (which use  
11           the international non-proprietary name and the name of  
12           the company).

13           27. "Importation" means the lawful process of  
14           bringing medicines into the Federated States of  
15           Micronesia, by sea or air.

16           28. "Importer". An importer is an individual or  
17           company or similar legal entity importing or seeking  
18           to import a pharmaceutical product. A "licensed" or  
19           "registered" importer is one who has been granted a  
20           license or registration status for the purpose. The  
21           license or registration of an importer does not  
22           automatically grant the importation of any  
23           medicinal/pharmaceutical product/s in the country as  
24           products to be imported shall be subject to a separate  
25           process of registration/marketing authorization as

---

1           regulated by this Act.

2           29. "Good manufacturing practices" (GMP) is the  
3           element of quality management which ensures that  
4           products are consistently produced and controlled  
5           according to the quality standards appropriate of  
6           their intended use and as required by the marketing  
7           authorization, clinical trial authorization or product  
8           specification. It is aimed at managing and minimizing  
9           the risks inherent in pharmaceutical manufacture in  
10          order to ensure the quality, safety and efficacy of  
11          products.

12          30. "Good distribution practice" (GDP) is part of  
13          quality assurance which ensures that the quality of  
14          pharmaceuticals is maintained throughout the numerous  
15          activities occurring during the distribution process.  
16          It encompasses the following elements: maintain a  
17          constant supply of drugs, keep pharmaceuticals in good  
18          condition through the distribution process, minimize  
19          pharmaceutical losses due to spoilage and expiry,  
20          maintain accurate inventory records, rationalize drug  
21          storage points, use available transportation resources  
22          as efficiently as possible, reduce theft and fraud,  
23          and provide information for forecasting  
24          pharmaceuticals needs.

25          31. "Good pharmacy practice" is the practice of

---

1 pharmacy aimed at providing and promoting the best use  
2 of drugs and other health care services and products  
3 by patients and members of the public.

4 32. "Inspection" is an official examination,  
5 usually conducted on-site by a relevant authority to  
6 determine compliance to regulations, standards and  
7 good practices for, but not limited to, pharmaceutical  
8 establishments; warehouses; ports or any other entity  
9 engaged in the trade and supply of pharmaceutical  
10 products as well as establishments providing  
11 pharmaceutical services.

12 33. "Inspector" means a person designated, upon  
13 appropriate training and certification, to carry out  
14 inspection of medicines and establishments.  
15 Certification of inspectors shall be in compliance  
16 with health regulations and policies as established  
17 under this Act.

18 34. "International non-proprietary name" (INN) or  
19 "generic name" is a unique name that is globally  
20 recognized as the unique and universally available  
21 designated name to identify each pharmaceutical  
22 substance. INN is used in the international  
23 nomenclature for the clear identification, safe  
24 prescription and dispensing of medicines to patients,  
25 INNs are intended for use in pharmacopoeias, labeling,

---

1 product information, advertising and other promotional  
2 material, medicine regulation and scientific  
3 literature, and as a basis for product names.

4 34. "Internet pharmacy" means pharmacy that  
5 operates over the internet or is involved in trading  
6 of pharmaceutical products online.

7 35. "License holder for pharmaceutical product" is  
8 an individual or entity duly registered under this Act  
9 who holds a marketing authorization for a  
10 pharmaceutical product.

11 36. "Licensing system" is a national legal  
12 requirement provided for in this Act on who should  
13 manufacture, import or supply pharmaceuticals  
14 products, what qualifications people in the supplying  
15 agency should have, and who should dispense and sell  
16 pharmaceutical products.

17 37. "Manufacturer" is a natural or legal person  
18 with responsibility for manufacturing of a product.

19 39. "Manufacturing" includes all operations of  
20 receipt of materials, production, packaging,  
21 repackaging, labeling, relabeling, quality control,  
22 release, storage and distribution of active  
23 pharmaceutical ingredients and related controls.

24 40. "Marketing authorization (registration)" is a  
25 legal document issued under this Act, for the purpose

---

1           of marketing or free distribution of a product after  
2           evaluation for safety, efficacy and quality and the  
3           needs of the people in FSM. Once a product has been  
4           given marketing authorization, it is included on a  
5           list of authorized products – the register – and is  
6           often said to be "registered" or to "have  
7           registration". Market authorization may occasionally  
8           also be referred to as a "license" or "product  
9           license".

10           41. "Medication error" is any preventable event  
11           that may cause or lead to inappropriate medication use  
12           or patient harm while the medication is in the control  
13           of the health care professional, patient, or consumer.  
14           Such events may be related to professional practice,  
15           health care products, procedures, and systems,  
16           including prescribing; order communication; product  
17           labeling, packaging, and nomenclature; compounding;  
18           dispensing; distribution; administration; education;  
19           monitoring; and use.

20           42. "Medicine Information". For the purpose of this  
21           Act, medicine information will include but not limited  
22           to:

23                   a. Medicine description (generic name;  
24                   strength; dosage form/formulation; etc)

25                   b. Indication

---

1                    c. Adverse Effects

2                    d. Warnings

3                    43. "Medicines regulatory authority (or National  
4                    Regulatory Authority)" is a body created under this Act  
5                    to administer and enforce the full spectrum of  
6                    pharmaceutical regulations, including but not limited  
7                    to the following: marketing authorization of new  
8                    products and variation of existing products; quality  
9                    control laboratory testing; pharmacovigilance;  
10                   provision of medicine information and promotion of  
11                   rational medicines use; enforcement of Good  
12                   Manufacturing Practice (GMP); inspections and  
13                   licensing of manufacturers, wholesalers, pharmacies,  
14                   importers, exporters and distributors; enforcement  
15                   operations and monitoring of medicines utilization  
16                   and all other regulations that are deemed necessary in  
17                   ensuring the safety, quality, and efficacy of  
18                   pharmaceuticals.

19                   44. "Medicinal device" means goods consisting of an  
20                   instrument, apparatus, appliance, materials or other  
21                   articles (whether for a use alone or in combination)  
22                   together with any accessories or software required for  
23                   its proper functioning, which is intended to be used  
24                   in, on, or for human beings for therapeutic purpose  
25                   and which does not achieve its principles intended

---

1           action by pharmacological, chemical, immunological or  
2           metabolic means though it may be assisted in such  
3           functions by such means.

4           45. "National Essential Medicines List" is the list  
5           of essential medicines that has been defined and  
6           adopted by the National Drug Therapeutics Committee  
7           through an evidence-based process and approved by The  
8           Secretary which includes all pharmaceutical and  
9           therapeutic products that meets the need of the people  
10          of FSM. The list shall be the basis for marketing  
11          authorization, importation, and procurement by health  
12          service providers and reimbursement by health  
13          insurance.

14          46. "National medicines policy (NMP)". The  
15          national medicine policy of FSM embodies the  
16          commitment, goal and strategic direction for improving  
17          access to quality, safe and effective essential  
18          medicines for the people of FSM. It expresses and  
19          prioritizes the medium- to long-term goals set by the  
20          government for the pharmaceutical sector, and  
21          identifies the main strategies for attaining them. It  
22          provides a framework within which the activities of  
23          the pharmaceutical sector can be coordinated. The NMP  
24          may be reviewed from time to time as the need arises.

25          47. "New chemical entity (NCE)" is a chemical

---

1           molecule developed by the innovator company in the  
2           early discovery stage, which after undergoing clinical  
3           trials could translate into a pharmaceutical that  
4           could be a cure for some disease.

5           48. "Over-the-counter medicines (non-prescription  
6           medicines)" are medicines that can be sold from  
7           licensed dealers without professional supervision and  
8           without prescription. These medicines are suitable for  
9           self medication for minor disease and symptoms.

10          49. "Pharmaceutical (medicine, drug)". A  
11          pharmaceutical is any substance or pharmaceutical  
12          product for human or veterinary use that is intended  
13          to modify or explore physiological systems or  
14          pathological states for the benefit of the recipient.  
15          In this document, the terms drug, medicine, and  
16          pharmaceutical are used interchangeably, and shall  
17          include, medicines, vaccines, traditional medicines,  
18          biologicals and/or other products with proven  
19          therapeutic effect. Any product entered and sold into  
20          FSM with a therapeutic claim shall be treated and  
21          regulated as a pharmaceutical product and shall  
22          conform to all the requirements and regulations under  
23          this Act.

24          50. "Pharmaceutical form" is the pharmaceutical-  
25          technological form in which an active substance is

---

1 made available. Pharmaceutical may be administered in  
2 solid form (e.g. tablets, powers), in semi-liquid form  
3 (e.g. ointments, pastes), in liquid form (e.g., drops,  
4 injectables, infusions) or in gaseous form  
5 (inhalation).

6 52. "Pharmaceutical product" is a unique product  
7 defined by its active pharmaceutical ingredient, the  
8 strength of the active pharmaceutical ingredient, its  
9 pharmaceutical form and route of administration.

10 53. "Pharmacopeia" or "International Pharmacopoeia"  
11 constitutes a collection of recommended procedures for  
12 analysis and specifications for the determination of  
13 pharmaceutical substances and dosage forms that is  
14 intended to serve as source material to establish  
15 pharmaceutical requirements.

16 54. "Pharmacists" are persons who have completed  
17 studies in pharmacy at university level (granted by  
18 adequate diploma) and who are licensed to practice  
19 pharmacy.

20 55. "Pharmaceutical sector" is a part of the  
21 health sector that deals with, but not limited to:

22 a. Medicines; vaccines and biological  
23 products; diagnostics; traditional medicines and other  
24 medicinal/pharmaceutical products

25 b. Private and government entities and

---

1 establishments that handles medicines or provide  
2 pharmaceutical services;

3 c. Individuals practicing pharmacy.

4 56. "Pharmacovigilance" is the science and  
5 activities relating to the detection, assessment,  
6 understanding and prevention of adverse effects or any  
7 other drug-related problems.

8 57. "Pharmacy" or "Pharmacies" are premises which  
9 in accordance to the local legal provisions and  
10 definitions may operate as a facility in the provision  
11 of pharmacy services in the community or health  
12 facility setting.

13 58. "Person" includes, but is not limited to, an  
14 individual, body corporate, companies, organizations,  
15 and corporations.

16 59. "Post-marketing surveillance" is the testing of  
17 medicine samples to assess the quality of medicines  
18 that have already been licensed for public use.

19 60. "Prequalification". The activities undertaken  
20 in defining a product or service need, seeking  
21 expressions of interest from enterprises to supply the  
22 product or service, and examining the product or  
23 service offered against the specification and the  
24 facility where the product or service is prepared  
25 against common standards of good manufacturing

---

1           practice (GMP). The examination of the product or  
2           service and of the facility where it is manufactured  
3           is performed by trained and qualified inspectors  
4           against common standards. Once the product is  
5           approved, and the facility is approved for the  
6           delivery of the specified product or service, other  
7           procurement agencies are informed of the decision.  
8           Prequalification is required for all pharmaceutical  
9           products regardless of their composition and place of  
10          manufacture/registration, but the amount and type of  
11          information requested from the supplier for assessment  
12          by the procurement agency may differ.

13           61. "Prescriber". A prescriber is a health care  
14           professional who is legally qualified to write a  
15           prescription.

16           62. "Prescription" is an order mostly in written  
17           form by a qualified health care professional to a  
18           pharmacist or other therapist for a medicine or  
19           treatment to be provided to their patients.

20           63. "Prescription-only medicines" are medicines  
21           supplied only in licensed pharmacies on the  
22           presentation of signed prescriptions issued by a  
23           licensed and registered medical practitioner, licensed  
24           and/or registered dentist (for dental treatment only),  
25           and/or licensed and/or registered veterinarian (for

---

1           animal treatment only) and/or other health  
2           professionals allowed to prescribe in FSM and the  
3           supply and dispensing of these medicines must be  
4           carried out by a pharmacist or under the supervision  
5           of a pharmacist. Prescription-only medicines are  
6           further subdivided into controlled medicines (narcotic  
7           medicines and psychotropic substances) and non-  
8           controlled medicines.

9           64. "Procurement" is the process of acquiring  
10          supplies, including those obtained by purchase,  
11          donation, and manufacture.

12          65. "Promotion" refers to all informational and  
13          persuasive activities by manufacturers and  
14          distributors, the effect of which is to induce the  
15          prescription, supply, purchase and/or use of medicinal  
16          drugs.

17          66. "Quality assurance" is a wide-ranging concept  
18          covering all matters that individually or collectively  
19          influence the quality of pharmaceuticals.

20          67. "Quality control" are all measures taken,  
21          including the setting of specifications, sampling,  
22          testing and analytical clearance, to ensure that raw  
23          materials, intermediates, packaging materials and  
24          finished pharmaceutical products conform with  
25          established specifications for identity, strength,

---

1           purity and other characteristics.

2           68. "Rational use of medicines". Rational use of  
3           medicines requires that patients receive medications  
4           appropriate to their clinical needs, in doses that  
5           meet their own individual requirements, for an  
6           adequate period of time, and at the lowest cost to  
7           them and their community.

8           69. "Recalls" are actions taken to remove a  
9           pharmaceutical product from the market which do not  
10          conform to established standards of quality, safety  
11          and efficacy, and/or harmful to the public and/or  
12          unlicensed by the national regulatory authority of  
13          FSM.

14          70. "Recognition" is the acceptance of the  
15          regulatory decision of another regulatory authority of  
16          another country.

17          71. "Regulatory cooperation is the mechanism  
18          whereby the pharmaceutical regulatory authority  
19          established under this Act shall work with other  
20          relevant regulatory authorities, agencies or  
21          institutions within the country or in other countries  
22          in order to efficiently and effectively regulate  
23          pharmaceutical products. Regulatory cooperation may  
24          also include working with international counterparts  
25          to build regulatory capacity or provide technical

---

1 assistance in the implementation and/or enforcement of  
2 its functions.

3 72. "Regulatory Inspection" is an officially  
4 conducted examination (i.e. review of quality  
5 assurance processes, personnel involved, any  
6 delegation of authority and audit) by relevant  
7 authorities at sites where pharmaceutical activities  
8 take place (i.e. manufacturing, wholesale, testing,  
9 distribution, clinical trials) to verify adherence to  
10 Good Practices.

11 73. "Reliance" is the act whereby the regulatory  
12 authority established in the Act shall take into  
13 account the evaluations performed by other regulatory  
14 authorities as a basis for decision making.

15 74. "Regulations" are the set of instruments  
16 provided under this Act and other relevant laws and  
17 regulations of the Federated States of Micronesia by  
18 which the government places and enforces  
19 requirements and standards for establishments,  
20 products and individuals to ensure the quality,  
21 safety, efficacy and appropriate use of  
22 pharmaceuticals.

23 75. "Regulatory convergence" is a voluntary process  
24 whereby the regulatory requirements in different  
25 countries or regions become more similar or "aligned"

---

1           over time. The process results from the gradual  
2           adoption of internationally recognized technical  
3           guideline documents, standards and scientific  
4           principles, common or similar practices and  
5           procedures, or the establishment of appropriate  
6           domestic regulatory mechanisms that align with shared  
7           principles to achieve a common public health goal.

8           76. "Raw materials" are basic materials or  
9           substances that have not been processed and are still  
10          in the form in which they are found in nature which  
11          are used alone or in combinations to make medicinal  
12          preparations.

13          77. "Retailing" means selling of medicines to end  
14          users not for resale but for use and consumption by  
15          the purchaser.

16          78. "Standard operating procedure (SOP)" is an  
17          authorized written procedure providing a documented  
18          process to follow in a specific situation.

19          79. "Sample". A sample is a portion of a material  
20          or a pharmaceutical product collected according to a  
21          defined sampling procedure.

22          80. "Sampling". Operations designed to obtain a  
23          representative portion of a pharmaceutical product,  
24          based on an appropriate statistical procedure, for a  
25          defined purpose.

---

1           81. "Secretary" means the Secretary of Health and  
2           Social Affairs, or his or her designee.

3           82. "Selling" means providing medicines to another  
4           person in exchange for money or something considered  
5           to have monetary value.

6           83. "Specification" is a list of detailed  
7           requirements with which the products or materials used  
8           or obtained during manufacture have to conform. They  
9           serve as a basis for quality evaluation.

10          84. "Standard treatment guidelines" (STGs) are  
11          recommended and standardized treatment protocols for  
12          commonly occurring conditions.

13          85. "Substandard medicines" mean medicines that are  
14          of low or poor quality than what it is indicated in  
15          the labeling or package inserts.

16          86. "Summary of product characteristics" (SPC) are  
17          product information as approved by the Regulatory  
18          Authority. The SPC serves as the basis for production  
19          of information for health personnel as well as for  
20          consumer information on labels and leaflets of  
21          medicinal products and for control of advertising.

22          87. "Traditional Medicine" is the sum total of  
23          knowledge, skills, and practices based on the  
24          theories, beliefs and experiences indigenous to  
25          different cultures, whether explicable or not, used in

---

1           the maintenance of health as well as in prevention,  
2           diagnosis, improvement, or treatment of physical and  
3           mental illnesses.

4           88. "Wholesale". All activities consisting of  
5           procuring, holding, supplying or exporting medicinal  
6           products, apart from supplying medicinal products to  
7           the public. Such activities are carried out with  
8           manufacturers or their depositories, importers, other  
9           wholesale distributors or with pharmacists and persons  
10           authorized or entitled to supply medicinal products to  
11           the public.

12           89. WHO certification scheme". The WHO  
13           Certification Scheme offers to importing countries  
14           information about: a) the status of the pharmaceutical  
15           product; b) the status of the manufacturer of the  
16           pharmaceutical product; c) the quality of individual  
17           batches of the exported pharmaceutical product; d)  
18           product information as approved in the country of  
19           export."

20           Section 6. Chapter 12 of title 41 of the Code of the  
21 Federated States of Micronesia (Annotated), is hereby amended by  
22 creating a new subchapter 2 entitled: "Scope of the Law".

23           Section 7. Chapter 12 of title 41 of the Code of the  
24 Federated States of Micronesia (Annotated), is hereby amended by  
25 inserting a new section 1204 of subchapter 2 to read as follows:

---

1           "Section 1204. Pharmaceutical Products

2           All pharmaceutical products, including, but not limited to  
3           medicines, vaccines, biopharmaceuticals, blood and blood  
4           products, tradition medicine, and any other products with  
5           therapeutic claims shall be a regulated under this law."

6           Section 8. Chapter 12 of title 41 of the Code of the  
7 Federated States of Micronesia (Annotated), is hereby amended by  
8 inserting a new section 1205 of subchapter 2 to read as follows:

9           "Section 1205. Pharmaceutical Activities

10          All pharmaceutical activities including but not limited to  
11          the manufacture, importation, exportation, wholesaling,  
12          distribution, supply and retailing, labeling and  
13          packaging, advertisement and marketing, clinical trials,  
14          and donations shall be regulated under this law."

15          Section 9. Chapter 12 of title 41 of the Code of the  
16 Federated States of Micronesia (Annotated), is hereby amended by  
17 inserting a new section 1206 of subchapter 2 to read as follows:

18          "Section 1206. Practice of Pharmacy

19          The practice of pharmacy, including but not limited to  
20          dispensing and prescribing shall be regulated under this  
21          law. The use of pharmaceutical products shall strictly  
22          follow regulations under this Act, other relevant laws and  
23          other subsequent guidance that will be issued by competent  
24          authorities in FSM."

25          Section 10. Chapter 12 of title 41 of the Code of the

---

1 Federated States of Micronesia (Annotated), is hereby amended by  
2 creating a new Subchapter 3 entitled: "Administration".

3 Section 11. Chapter 12 of title 41 of the Code of the  
4 Federated States of Micronesia (Annotated), is hereby amended by  
5 inserting a new section 1207 of subchapter 3 to read as follows:

6 "Section 1207. Pharmaceutical Unit

7 The Secretary shall establish a structure/unit within  
8 the Department of Health and Social Affairs to be called  
9 the Pharmaceutical Access, Standards and Regulatory  
10 Unit, to be headed by a coordinator, otherwise known as  
11 the Pharmaceutical Unit. The unit shall have the  
12 following functions:

13 1. Administrative Functions:

14 a. Administer and oversee the implementation  
15 and enforcement of this Act and regulations established  
16 under this Act;

17 b. Provide advice to the Secretary on matters  
18 of policies and regulations pertaining to the  
19 pharmaceutical sector, and access to pharmaceutical  
20 products;

21 c. Lead and coordinate the implementation of  
22 this Act and other related laws, ordinances and  
23 regulations pertaining to pharmaceutical activities and  
24 services;

25 d. Monitor on a regular basis the

---

1           pharmaceutical situation and generate information on  
2           access, affordability and quality, safety and efficacy  
3           of medicines;

4                   e. Cooperate in the performance of its function  
5           in conjunction with other related established government  
6           bodies to carry out its functions"; and

7                   f. Monitor and review the implementation of the  
8           legislation;

9                   1. Regulatory Functions:

10                   a. Establish the requirements and standards for  
11           the registration/marketing authorization of products and  
12           licensing of establishments based on internationally  
13           accepted standards;

14                   b. Require that all medicinal products  
15           manufactured in, imported into or exported from the  
16           country conform to prescribed standards of quality,  
17           safety and efficacy, and that the personnel, premises  
18           and practices employed to manufacture, promote, procure,  
19           store, distribute and sell such products comply with  
20           defined standards, codes of practice and other  
21           requirements prescribed under this law, rules and  
22           regulations, administrative orders and other relevant  
23           regulations in the Federated States of Micronesia;

24                   c. Require continued conformity of  
25           pharmaceutical products to established standards along

---

1           the supply chain until their delivery to the end user;

2                   d. Grant, after due assessment, appraisal or  
3           evaluation, authorizations/licenses for  
4           medicinal/pharmaceutical products, whether locally  
5           manufactured or imported, and whether destined for the  
6           national market or export;

7                   e. Cancel the authorization/registration of, or  
8           cause to be recalled from the market, such medicinal  
9           products, the continued use of which may be detrimental  
10          to public health;

11                   f. Grant, after due assessment, appraisal or  
12          evaluation, licenses to establishments, intending to  
13          manufacture, import, export, wholesale, distribute and  
14          supply, retail or undertake any other activity in  
15          relation to pharmaceutical products;

16                   g. Cancel the license of such establishments  
17          which do not meet requirements and standards or the  
18          continued operation of which may be detrimental to  
19          public health;

20                   h. Maintain an inventory and publish from time  
21          to time a list of registered medicinal products and  
22          licensed establishments;

23                   i. Ensure that dossiers for marketing  
24          authorization of medicinal products and establishments  
25          are kept up to date by the applicants and to approve

---

1           alterations/changes thereto;

2                   j. Ensure that the promotion and marketing of  
3           medicinal products is in accordance with product  
4           information as approved by the drug regulatory  
5           authority;

6                   k. Regulate the use of pharmaceutical products  
7           (registered & unregistered / unauthorized) for clinical  
8           trial purposes or for compassionate use;

9                   l. Regulate the conduct and implement ethical  
10          standards and oversight of clinical trials on  
11          pharmaceutical products;

12                  m. Monitor the presence and cause the  
13          elimination of f substandard, falsified, illegal /  
14          unlicensed pharmaceutical products in FSM;

15                  l. Disseminate information on medicinal  
16          products to the health professions in order to promote  
17          their rational use;

18                  n. Establish and implement a national  
19          pharmacovigilance system to monitor the safety of  
20          medicines including adverse drug reactions and events.

21                  o. Establish and implement a system for drug  
22          recall of substandard, falsified and products that do  
23          not meet standards of quality, safety and efficacy and  
24          disseminate information on such recall;

25                  p. Establish policy and system for post-

---

1           marketing surveillance and quality assurance of  
2           medical products along the supply chain;

3           q. Examine, review, and make recommendations  
4           with respect to the issuance, renewal, suspension, or  
5           revocation of licenses issued or in effect pursuant to  
6           this chapter in accordance with the regulations  
7           established by this Act; and

8           r. Establish other regulations or any other  
9           legal requirements that may be necessary to support  
10          the objectives of this Act.

11           1. Inspectoral/Inspectorate Functions:

12           a. Inspect all manufacturing premises,  
13           importing agents, wholesalers, distributors, hospital  
14           dispensaries, pharmacies and retail outlets to ensure  
15           compliance to rules and regulations and standards  
16           stipulated under this Act;

17           b. Undertake the inspection at the port of  
18           entry of all pharmaceutical products imported in the  
19           Federated States of Micronesia; and

20           c. Inspect unlicensed entities that are  
21           operating and conducting pharmaceutical activities,  
22           and cause the issuance of cease and decess orders as  
23           appropriate.

24           d. Quality Assurance Functions:

25           f. Establish and implement a system for post-

---

1           marketing surveillance and detection of substandard,  
2           falsified and unregistered products circulating within  
3           the jurisdiction of the Federated States of  
4           Micronesia; and

5                   g. Provide for sampling and analytical and  
6                   other testing of finished pharmaceutical products  
7                   released into the distribution chain to assure their  
8                   compliance with labeled specifications."

9           Section 13. Chapter 12 of title 41 of the Code of the  
10 Federated States of Micronesia (Annotated), is hereby amended by  
11 creating a new subchapter 4 entitled: "Regulatory Cooperation".

12           Section 14. Chapter 12 of title 41 of the Code of the  
13 Federated States of Micronesia (Annotated), is hereby amended by  
14 inserting a new section 1208 of subchapter 4 to read as follows:

15                   "Section 1208. National Drug and Therapeutics  
16                   Committee

17                           1. The Secretary shall establish a Committee to  
18                           be called National Drug and Therapeutics Committee and  
19                           shall be chaired by the Pharmaceutical Unit or by the  
20                           Secretary's designee. This Committee and the  
21                           Pharmaceutical Unit shall coordinate with each other.

22                           2. The Committee shall:

23                                   a. Advice and assist the Secretary on  
24                                   policies to improve access and rational use of  
25                                   pharmaceutical products;

---

1                    b. Establish and implement a mechanism to  
2                    develop and review on a regular basis the essential  
3                    medicines list and FSM Approved Medicines List;

4                    c. Develop or adopt standard treatment  
5                    guidelines and formularies that are appropriate and in  
6                    consonance with the needs and services provided;

7                    d. Establish and implement mechanisms to  
8                    monitor rational drug use in all health service  
9                    facilities; including monitoring of prescription,  
10                   dispensing and consumption and expenditure of  
11                   medicines;

12                   e. Establish and implement antimicrobial  
13                   stewardship programs in all levels of health service  
14                   facilities;

15                   f. Provide report to the Secretary on a  
16                   regular basis on implementation of the above  
17                   functions; and

18                   g. Perform such other duties or functions as  
19                   maybe lawfully assigned by the Secretary."

20                   Section 15. Chapter 12 of title 41 of the Code of the  
21 Federated States of Micronesia (Annotated), is hereby amended by  
22 creating a new subchapter 5 entitled: "Regulation of  
23 Pharmaceutical Products".

24                   Section 16. Chapter 12 of title 41 of the Code of the  
25 Federated States of Micronesia (Annotated) is hereby amended by

---

1 inserting a new section 1210 of subchapter 5 to read as follows:

2 "Section 1210. FSM Approved Medicines List

3 1. The Secretary shall establish the FSM Approved  
4 Medicines List. Only medicines listed on the approved  
5 medicines list shall be imported and registered in the  
6 Federated States of Micronesia.

7 2. Other pharmaceutical products which are not in the  
8 approved medicines list may be registered upon  
9 certification of need by the National Drug Therapeutic  
10 Committee and upon approval by the Secretary for inclusion  
11 in the approved medicines list.

12 3. Pharmaceutical products for public health  
13 emergencies and for compassionate use, not otherwise  
14 contained in the FSM Approved List may be granted exemption  
15 from this provision upon recommendation of the National  
16 Drug Therapeutics Committee and upon certification by the  
17 Secretary.

18 4. The FSM Approved Medicines List shall be reviewed  
19 every two years or as often as necessary as the need  
20 arises."

21 Section 17. Chapter 12 of title 41 of the Code of the  
22 Federated States of Micronesia (Annotated), is hereby amended by  
23 inserting a new section 1211 of subchapter 5 to read as follows:

24 "Section 1211. Market Authorization

25 1. All pharmaceutical products used for the

---

1 prevention, diagnosis, treatment, management and care for  
2 medical conditions, shall be registered or granted a  
3 marketing authorization before they are imported, sold, and  
4 distributed in the Federated States of Micronesia;

5 2. The Secretary shall establish a registration  
6 system for pharmaceutical products. The Pharmaceutical Unit  
7 created under this Act, shall develop and implement a  
8 protocol for the appraisal, review and evaluation of  
9 products for registration. Pharmaceutical products already  
10 registered in competent jurisdictions with stringent  
11 regulatory measures or medicines from other jurisdictions  
12 that meet the standards of the WHO prequalification scheme  
13 and are included on the FSM Approved Medicines List may be  
14 exempted from the review process.

15 3. The Secretary shall establish the criteria and  
16 conditions for registration, including information on the  
17 nature and characteristics of the product, pharmaceutical  
18 dosage form; quality and safety data; shelf life and  
19 storage conditions; packaging characteristics; product  
20 information approved for health professionals and the  
21 public; sales category; level of access ; name and address  
22 of manufacturer, country of manufacture; name of countries  
23 where product is registered; name and address of entity  
24 applying for the registration; source of the product;  
25 country of origin; conditions of manufacture, such other

---

1 information that are necessary to ensure the identity,  
2 source and quality and safety of the product.

3 4. The Secretary shall establish specific criteria  
4 and procedure for registration for new chemical entities  
5 and variations to existing marketing authorization;

6 5. The Secretary shall establish an expert committee,  
7 or may call upon independent experts to assist the  
8 pharmaceutical unit in the evaluation of applications for  
9 marketing authorization of pharmaceutical products.

10 6. The Secretary shall determine the level of fees  
11 for the evaluation of application for marketing  
12 authorizations.

13 7. The Secretary may limit the number of products of  
14 the same type and dosage form to be registered as well as  
15 the number of marketing authorization holders.

16 8. The Secretary shall promulgate the guidelines for  
17 applicants for registration or marketing authorization.

18 9. Upon the establishment of the registration  
19 process, the Secretary shall require the conduct of market  
20 inventory to determine the products that are already  
21 available and/or circulating in the market.

22 10. All applications shall be accompanied by  
23 certificate of pharmaceutical product (CPP)/certificate of  
24 marketing authorization in the exporting country, and  
25 certification that the product to which the certificate

---

1 applies is identical in all respects to that marketed in  
2 the exporting country, or define and justify any  
3 differences.

4 11. Publication of marketing authorization decisions:  
5 The Pharmaceutical unit shall publish lists of newly  
6 authorized products, including at least the following  
7 information:

8 a. Generic name, dosage form, and strength;

9 b. Brand name (if present);

10 c. Marketing authorization holder;

11 d. Product marketing authorization number; and

12 e. Product Profile (Indication; Safety & Efficacy

13 Information

14 12. Periodic reviews: All marketing authorizations  
15 should be reviewed and updated regularly.

16 13. Suspension and revocation of marketing  
17 authorization: Marketing authorization may be suspended or  
18 revoked, in any of the following circumstances:

19 14. The product has been proven to be ineffective  
20 for the approved indication(s);

21 15. It is strongly suspected that the product is  
22 unsafe in the normal conditions of use;

23 16. The quantitative or qualitative composition is  
24 not as agreed in the marketing authorization;

25 17. The product is not in compliance with the

---

1        conditions of marketing authorization;

2                18. The product is being promoted in an  
3        inappropriate or unethical manner.

4                19. When the marketing authorization in the  
5        country of origin is revoked."

6        Section 18. Chapter 12 of title 41 of the Code of the  
7 Federated States of Micronesia (Annotated), is hereby amended by  
8 inserting a new section 1212 of subchapter 5 to read as follows:

9        "Section 1212. Entry of pharmaceutical products for public  
10        health emergency and live saving medicinal products.

11                1. The Secretary shall establish a facilitated and  
12        streamlined mechanism for the entry of pharmaceutical  
13        products for public health emergencies and life-saving  
14        medicines which are not registered in the Federated States  
15        of Micronesia;

16                2. In the event of public health emergency, the  
17        Secretary shall immediately convene the National  
18        Therapeutics Committee and the Pharmaceutical Unit to  
19        determine and advice her/him on the need and urgency of the  
20        registration and importation of such pharmaceutical  
21        products;

22                3. The Secretary, upon the recommendation of relevant  
23        entities within the Department of Health and Social Affairs  
24        and other relevant agencies of the government shall  
25        establish the criteria of what constitutes a public health

---

1 emergency. In addition, the Secretary may refer to the  
2 advice and guidance of internationally recognized bodies  
3 and the International Health Regulations (IHR). The  
4 Secretary may authorize the entry of products and exempt  
5 these from the registration process in the following  
6 situations:

7 a. In the event of public health emergency;

8 b. Medicines urgently needed for public health  
9 programs;

10 c. Where severe and life-threatening illness  
11 exists, where existing registered therapy fail or are  
12 ineffective; and

13 e. For rare and neglected diseases

14 1. The use pharmaceutical products under this Section  
15 shall be placed under strict control and monitoring by the  
16 Pharmaceutical Unit."

17 Section 19. Chapter 12 of title 41 of the Code of the  
18 Federated States of Micronesia (Annotated), is hereby amended by  
19 inserting a new section 1213 of subchapter 5 to read as follows:

20 "Section 1213. Pharmaceutical Products for Personal Use  
21 Pharmaceutical products intended for personal use may be  
22 allowed entry into the country, upon full satisfaction of  
23 the following:

24 1. Product is not for treatment of a serious  
25 condition and there is no known significant health risk

---

1        (Over the Counter, OTC); and

2                2. If product is a prescription drug; it must  
3        satisfy the following:

4                        a. The product must be accompanied by a  
5        prescription from a licensed physician in FSM or if the  
6        product is a continuation of a treatment obtained from a  
7        foreign country, a certification from the physician in that  
8        country who has administered the treatment;

9                        b. The product will not be commercialized or  
10       distributed to other persons in FSM;

11                       c. The consumer affirms in writing that the  
12       product is for personal use; and

13                       d. The quantity is generally not more than a  
14       three-month supply."

15        Section 20. Chapter 12 of title 41 of the Code of the  
16 Federated States of Micronesia (Annotated), is hereby amended by  
17 inserting a new section 1214 of subchapter 5 to read as follows:

18        "Section 1214. Donations  
19        Only products contained in the FSM Approved List will be  
20        accepted for donations in FSM. All donations will be  
21        subject to regulations under this act. Donations that are  
22        not in the FSM Approved List shall be treated under Section  
23        1210 of this Act."

24        Section 21. Chapter 12 of title 41 of the Code of the  
25 Federated States of Micronesia (Annotated), is hereby amended by

---

1 creating a new subchapter 6 entitled: "Quality Assurance".

2 Section 22. Chapter 12 of title 41 of the Code of the  
3 Federated States of Micronesia (Annotated). is hereby amended by  
4 inserting a new section 1215 of subchapter 6 to read as follows:

5 "Section 1215: Quality Assurance

6 1. Pharmaceutical standards: The International  
7 Pharmacopoeia and other pharmacopoeias recognized by the  
8 Pharmaceutical Unit of FSM may be used as the basis for  
9 compendial standards for quality testing of pharmaceutical  
10 products in FSM.

11 2. The Secretary shall establish a strategic plan and  
12 mechanism for quality assurance of medical products in the  
13 market including laboratory testing and analysis of drug  
14 samples, in a competent pharmaceutical control laboratory.

15 3. When resources allow, the Secretary shall cause  
16 the establishment and operation of a national  
17 pharmaceutical control laboratory to carry out the required  
18 analysis and tests to ensure that pharmaceutical products  
19 meet quality specifications."

20 Section 23. Chapter 12 of title 41 of the Code of the  
21 Federated States of Micronesia (Annotated), is hereby amended by  
22 creating a new subchapter 7 entitled: "Importation of Medicine".

23 "Section 1216. Importation of Medicines

24 1. Only medicines included in the FSM Approved List  
25 and issued marketing authorization shall be imported,

---

1 distributed, exported, stored, supplied, prescribed,  
2 dispensed, and sold in FSM

3 2. All imported medicines shall have all required  
4 documentation, including among others, marketing  
5 authorization, certificate of pharmaceutical product and  
6 certificates of analysis and shall be inspected upon  
7 arrival at the port-of-entry and in the establishments in  
8 accordance with inspection or verification procedural  
9 processes established by regulation under this Act.

10 3. Only registered license holders shall be eligible  
11 to procure, import, distribute, export, store, supply,  
12 prescribe, dispense, and sell medicines in accordance with  
13 the scope of their licenses.

14 4. The transportation and maintenance of distributed  
15 medicines shall be in accordance with established  
16 regulation as may be varied from time to time by the  
17 Secretary.

18 5. Procurement, storage, prescribing, dispensing,  
19 counseling, book keeping and disposal practices shall be in  
20 accordance with the best practices in the industry and by  
21 regulation.

22 6. Licensed establishments and health institutions  
23 shall keep all records of medicines for a certain period of  
24 time as may be established by regulations."

25 Section 24. Chapter 12 of title 41 of the Code of the

---

1 Federated States of Micronesia (Annotated), is hereby amended by  
2 creating a new subchapter 8 entitled: "Port of Entry for  
3 Pharmaceutical Products".

4 Section 25. Chapter 12 of title 41 of the Code of the  
5 Federated States of Micronesia (Annotated) is hereby amended by  
6 inserting a new section 1217 of subchapter 8 to read as follows:

7 "Section 1217. Designation of a Port of Entry for  
8 Pharmaceutical Products

9 1. The Secretary, in coordination with the Department  
10 of Finance and Administration and/or other relevant  
11 departments or agencies shall designate the port of entry  
12 of pharmaceutical products into the Federated States of  
13 Micronesia.

14 2. The Secretary shall cause the inspection of all  
15 pharmaceutical products at the port-of-entry or at the  
16 establishments, to verify the validity of their marketing  
17 authorization in FSM.

18 3. The Secretary may from time to time order the  
19 sampling of products at the port of entry for quality  
20 testing.

21 4. The Secretary may cause the non-release of  
22 pharmaceutical product, with questionable nature and origin  
23 and when risk of these being substandard or falsified  
24 exists. Pharmaceutical products that are entered into the  
25 Federated States of Micronesia outside the designated port

---

1       of entry shall be subjected to seizure, quarantine and  
2       destruction by the competent authorities."

3       Section 26. Chapter 12 of title 41 of the Code of the  
4 Federated States of Micronesia (Annotated) is hereby amended by  
5 creating a new subchapter 9 entitled: "Labeling, Packaging,  
6 Advertisement or Promotion".

7       Section 27. Chapter 12 of title 41 of the Code of the  
8 Federated States of Micronesia (Annotated) is hereby amended by  
9 inserting a new section 1218 of subchapter 9 to read as follows:  
10       "Section 1218. Labeling, Packaging, Advertisement or  
11       Promotion

12             1. All medicines must be clearly labeled and  
13             packaged to ensure that medicines are correctly described,  
14             readily identifiable and safe for use.

15             2. All imported and dispensed medicines and  
16             authorized handlers of medicines shall comply with  
17             labeling, packaging, advertising, and promotional  
18             requirements established by regulation and health policies,  
19             which shall set standards and requirements on the subject  
20             matters and other related items."

21       Section 28. Chapter 12 of title 41 of the Code of the  
22 Federated States of Micronesia (Annotated) is hereby amended by  
23 creating a new subchapter 10 entitled: "Medicine Information".

24       Section 29. Chapter 12 of title 41 of the Code of the  
25 Federated States of Micronesia (Annotated), is hereby amended by

---

1 inserting a new section 1219 of subchapter 10 to read as  
2 follows:

3 "Section 1219: Medicine Information

4 1. Licensed dispensers or sellers of medicines are  
5 required to provide adequate information and appropriate  
6 patient counseling at all times when a medicine is  
7 dispensed or sold.

8 2. Information on different types of medicine and the  
9 disseminating of information of the medicines to health  
10 institutions, relevant health workers, and patients shall  
11 be in compliance with relevant legislation, health  
12 regulations, and policies."

13 Section 30. Chapter 12 of title 41 of the Code of the  
14 Federated States of Micronesia (Annotated), is hereby amended by  
15 creating a new subchapter 11 entitled: "Pharmacovigilance".

16 Section 31. Chapter 12 of title 41 of the Code of the  
17 Federated States of Micronesia (Annotated), is hereby amended by  
18 inserting a new section 1220 of subchapter 11 to read as  
19 follows:

20 "Section 1220: Pharmacovigilance

21 1. The Secretary shall establish the national  
22 pharmacovigilance system to monitor and report adverse  
23 events, adverse drug reactions and adverse events following  
24 immunizations (AEFI) and other such conditions to safe  
25 guard public health, aid in the regulation of

---

1        pharmaceutical products; Such information collected shall  
2        be shared with relevant authorities, health service  
3        providers, health professionals, and when necessary to the  
4        public in a timely manner.

5            2. If at any time any dispenser of medicines or a  
6        person permitted to administer medicines has reason to  
7        believe that a substantial adverse reaction has arisen from  
8        the use of the medicine, the said individual shall  
9        immediately notify the Pharmaceutical Unit the nature of  
10       such effects and the circumstances in which they arose."

11       Section 32. Chapter 12 of title 41 of the Code of the  
12       Federated States of Micronesia (Annotated), is hereby amended by  
13       creating a new subchapter 12 entitled: "Recall and Withdrawal".

14       Section 33. Chapter 12 of title 41 of the Code of the  
15       Federated States of Micronesia (Annotated), is hereby amended by  
16       inserting a new section 1220 of subchapter 12 to read as follows:

17       "Section 1221: Recall and Withdrawal

18            1. The Secretary shall establish a system for medicine  
19       recall and withdrawal of:

20            a. Substandard, falsified and  
21       unlicensed/unregistered medicines;

22            b. Pharmaceutical products that are imported,  
23       distributed and sold by establishments which are not  
24       licensed to conduct pharmaceutical activities in the  
25       Federated States of Micronesia;

---

1                    c. Products with therapeutic claims that are not  
2                    otherwise registered as pharmaceutical products;

3                    d. Secretary shall ensure that Information on such  
4                    recalls are disseminated to the public, and reported to  
5                    international monitoring bodies in the case of substandard  
6                    and falsified products."

7                    Section 34. Chapter 12 of title 41 of the Code of the  
8 Federated States of Micronesia (Annotated), is hereby amended by  
9 creating a new subchapter 13 entitled: "Antimicrobial Medicines".

10                   Section 35. Chapter 12 of title 41 of the Code of the  
11 Federated States of Micronesia (Annotated), is hereby amended by  
12 inserting a new section 1222 of subchapter 13 to read as follows:

13                   "Section 1222: Antimicrobial Medicines

14                   1. In addition to the regulations established under  
15                   this Act, the importation, distribution, sale,  
16                   prescription, dispensing and use of antimicrobial drugs  
17                   shall be placed under the strict regulation and oversight  
18                   by the Secretary.

19                   2. The Secretary shall direct the stringent monitoring  
20                   of prescription, dispensing, sale and use of antimicrobial  
21                   medicines in all pharmaceutical establishments and across  
22                   all levels of health care;

23                   3. The Secretary shall require from time to time the  
24                   collection of samples and testing of antimicrobials in a  
25                   competent laboratory

---

1           4. The Secretary shall direct the establishment of  
2           antimicrobial stewardship programs at all levels of health  
3           care,

4           5. The Secretary shall coordinate with all relevant  
5           departments the restriction and monitoring of use of  
6           antibiotics in the agriculture and animal sectors including  
7           the use of antimicrobials for other purposes other than for  
8           their intended use under this Act.

9           6. It shall be unlawful to use antimicrobials without  
10          the direction, advice of competent professionals and  
11          outside of their intended use."

12          Section 36. Chapter 12 of title 41 of the Code of the  
13          Federated States of Micronesia (Annotated), is hereby amended by  
14          creating a new subchapter 14 entitled: "Establishments".

15          Section 37. Chapter 12 of title 41 of the Code of the  
16          Federated States of Micronesia (Annotated), is hereby amended by  
17          inserting a new section 1223 of subchapter 14 to read as  
18          follows:

19          "Section 1223: Licensing.

20                 1. All establishments are prohibited from handling  
21                 medicines unless duly licensed by the Secretary.

22                 2. The Secretary shall establish regulations which  
23                 shall set forth requirements and criteria for licensing,  
24                 and code of conduct or a professional standard for  
25                 establishments or persons involved in the handling of

---

1 medicines in relation to importation, distribution,  
2 exportation, manufacturing, wholesaling, retailing,  
3 advertising and promotion.

4 3. The Secretary shall also have the power to renew,  
5 suspend, or revoke licenses.

6 4. The Secretary or his or her designee shall have the  
7 power to perform unannounced inspections at establishments  
8 that handle medicines and also perform random sampling of  
9 medicines for quality assurance.

10 5. A license holder shall report to the Secretary of  
11 any change of address of business, change of ownership of  
12 business and the date where business will cease to  
13 operate.”

14 Section 38. Chapter 12 of title 41 of the Code of the  
15 Federated States of Micronesia (Annotated), is hereby amended by  
16 inserting a new section 1224 of subchapter 14 to read as follows:

17 “Section 1224: License Fees.

18 1. The Secretary with advice of the Committee may by  
19 regulation require that a fee be paid by applicants for  
20 licenses or renewal of licenses. Fees shall be payable upon  
21 application or such other times as is determined by the  
22 Secretary. Such fees may be different for the different  
23 categories of licenses as prescribed by the Secretary and  
24 such fees may change from time to time. All fees shall be  
25 deposited in an account nominated by the Secretary as a

---

1 revolving fund for the Unit or the Department of Health and  
2 Social Affairs purposes."

3 Section 39. Chapter 12 of title 41 of the Code of the  
4 Federated States of Micronesia (Annotated), is hereby amended to  
5 insert a new section 1225 of subchapter 14 to read as follows:

6 "Section 1225. Display and Record of Licenses.  
7 Licenses shall be posted in a prominent location at the  
8 license establishments or premises. A permanent record of  
9 each license and each renewal thereof shall be kept in a  
10 record by the Secretary."

11 Section 40. Chapter 12 of title 41 of the Code of the  
12 Federated States of Micronesia (Annotated), is hereby amended to  
13 insert a new section 1226 of subchapter 14 to read as follows:

14 "Section 1226. Revocation or Suspension of Licenses.

15 1. Any license issued or in effect pursuant to the  
16 provisions of this chapter or provisions of regulations  
17 established under this chapter may be revoked or suspended  
18 for cause by the Secretary. The Secretary may take other  
19 such disciplinary actions against the license holder in  
20 accordance with the provisions of chapter 1, of the Title  
21 17 of the FSMC as she or he finds appropriate. FSMC shall  
22 apply to such action.

23 2. Upon a revocation or suspension or their becoming  
24 final all pharmaceutical medicines shall be forfeited to  
25 the FSM government and shall be dealt with by the Secretary

---

1 in accordance with established regulations and policies.”

2 Section 41. Chapter 12 of title 41 of the Code of the  
3 Federated States of Micronesia (Annotated) is hereby amended to  
4 insert a new section 1227 of subchapter 14 to read as follows:

5 “Section 1227. Confidentiality of Records.

6 1. All information provided to the Secretary by any  
7 source in connection to official activities of the Unit or  
8 the Committee shall be kept confidential and shall be  
9 released only in response to subpoena or court order or  
10 administrative order provided, however, that such sources  
11 shall have access to their records in accordance with  
12 policy and procedures established by regulations and  
13 legislation.

14 2. Whistle blowers shall be protected by regulations  
15 and policy and procedure.”

16 Section 42. Chapter 12 of title 41 of the Code of the  
17 Federated States of Micronesia (Annotated), is hereby amended by  
18 inserting a new subchapter 15 entitled: “Manufacturing”.

19 Section 43. Chapter 12 of title 41 of the Code of the  
20 Federated States of Micronesia (Annotated), is hereby amended by  
21 inserting a new section 1228 of subchapter 15 to read as follows:

22 “Section 1228. Unless permitted by the Secretary,  
23 applicable legislation, health policy and regulation, the  
24 manufacturing of medicines is prohibited”.

25 Section 44. Chapter 12 of title 41 of the Code of the

---

1 Federated States of Micronesia (Annotated) is hereby amended by  
2 inserting a new subchapter 16 entitled: "Internet Pharmacy"

3 Section 45. Chapter 12 of title 41 of the Code of the  
4 Federated States of Micronesia is hereby amended by inserting a  
5 new section 1229 of subchapter 16 to read as follows:

6 "Section 1229. Unless permitted by the Secretary,  
7 applicable or relevant legislations, national health  
8 policies and regulations, Internet Pharmacy is strictly  
9 prohibited."

10 Section 46. Chapter 12 of title 41 of the Code of the  
11 Federated States of Micronesia (Annotated), is hereby amended by  
12 inserting a new subchapter 17 entitled: "Complementary and  
13 Traditional Medicines".

14 Section 47. Chapter 12 of title 41 of the Code of the  
15 Federated States of Micronesia (Annotated), is hereby amended by  
16 inserting a new section 1230 of subchapter 17 to read as  
17 follows:

18 "Section 1230. Finished Products.  
19 For the purpose of this Act, finished products proclaiming  
20 to have healing effects will be treated and regulated as  
21 medicines unless otherwise directed by the Secretary,  
22 relevant legislations, regulations and health policies."

23 Section 48. Chapter 12 of title 41 of the Code of the  
24 Federated States of Micronesia (Annotated), is hereby amended by  
25 inserting a new section 1231 of subchapter 17 to read as

---

1 follows:

2 "Section 1231. Traditional Medicine  
3 The Secretary shall promote and regulate the use of  
4 traditional medicine through regulation to be promulgated  
5 in accordance with the Administrative Procedures Act in  
6 Title 17 of this Code."

7 Section 49. Chapter 12 of title 41 of the Code of the  
8 Federated States of Micronesia (Annotated), is hereby amended by  
9 inserting a new subchapter 18 entitled: "General Offenses and  
10 Penalties".

11 Section 50. Chapter 12 of title 41 of the Code of the  
12 Federated States of Micronesia (Annotated), is hereby amended by  
13 inserting a new section 1233 of subchapter 18 to read as follows:

14 "Section 1233. Penalties

15 1. Any wilful violation of any provision of this  
16 chapter is subject to a fine of \$3,000 up to \$15,000 and/or  
17 imprisonment of up to five (5) years.

18 2. Where an offense is committed by a corporation or  
19 legal entity, the maximum fine is up to \$100,000; and where  
20 a violation by a corporation or legal entity resulted in a  
21 serious injury or death of a person, the maximum fine is up  
22 to \$200,000.

23 (1) The Secretary may issue regulation to implement this  
24 section and any other provision of this chapter."
